Visit to Planetarium

Specific learning outcomes:-

- The children will understand that our universe is full of stars, suns and planets all far off from earth and therefore they look very small.
- The children will also understand that our planets have no light of their own; they only reflect the light of the sun.

- The children will also know that our solar system consist of one sun, eight planets and 165 satellites.
- They will know that Milky Way is the galaxy which is the home of our Solar System together with at least 400 billion other stars and their planets.
- Discussion on the possibility of life on other planets like aliens and U.F.O.
- Names of some famous astronauts like Neil Armstrong, Kavita Chawla, Sunita Williams etc.
- Identify the sun as a source of energy, light, and heat.
- The different phases of the moon.
