

MEASLES – RUBELLA (MR) VACCINATION CAMP on 16 March 2019

NEW CIRCULAR

Dear Parents / Guardians,

Greetings from Sanskaar !

This is pertaining to the ongoing MR campaign in our country. The Government has intensified the drive against Measles and Rubella. The aim is to eliminate Measles and Rubella from India by 2020; and this will be possible only when 100% of children of our country in the age group 9 months till 15 years are vaccinated with the MR (Measles and Rubella) vaccine. Thus, the Government has made it **mandatory** for all children in the above-mentioned age group to be compulsorily vaccinated with the MR Vaccine irrespective of their previous vaccination with Measles vaccine or MMR vaccine.

With a strong commitment of the school towards service to society, The Sanskaar Valley School wholeheartedly supports this noble endeavour by the Government of India and has, once again, offered its premises for the Vaccination Camp to be organized by the Health Ministry. Under this program, as per the government circular, all children from age 9 months till 15 years must be compulsorily vaccinated with the MR vaccine, and accordingly, we have considered all students of our school from Aarambh (Nursery) till Grade 10th, for this vaccination program.

As mentioned in our earlier notices, the vaccination facility is also available at select institutes of Bhopal till 15th March, 2019. The list of these institutes is attached with the circular (please see below). We request the parents to get the MR Vaccination of their wards done at one of these locations and submit the photocopy of the vaccination certificate with us, if not done yet.

Alternatively, the parents can get the MR Vaccination of their wards done in the camp, set up at school, as per the following plan:

- **Date & Venue:** **Saturday, 16 March 2019 in Prangan Block**
- **Time** : **Anytime between 9:00 am and 1:00 pm**

Kindly note : All students from Aarambh till Grade 10 will be vaccinated with the MR Vaccine by the staff of the Health Department, Ministry of Health and Family Planning, Government of India.

- Aadhar & Prangan : The students of Aadhar and Prangan are to be accompanied by their parents/guardians.
- Sopaan & Shikhar : It is a working day for classes 6th to 10th. The students are to carry a signed consent letter from the parents, regarding this MR Vaccination or submit the photocopy of the vaccination certificate, if already vaccinated with the MR Vaccine.

Meal : All children should have had their breakfast/lunch before getting vaccinated

Let's join hands and support this unique endeavour of the Government in making our country disease free and safe for our children.

N.B.

Following students need not take the MR vaccine.

- 1. Those having High Fever on the day of vaccination.**
- 2. Those who are epileptic.**
- 3. Those who have a history of any allergy or reaction to any vaccination in the past.**

MEASLES – RUBELLA (MR) VACCINATION CAMP

Dear Parents / Guardians,

Greetings from Sanskaar!

This has reference to our earlier circular, dated 14th Jan 2019

As a part of the Government initiative to eliminate Measles and Rubella from India by 2020, the MR Vaccination Camp was organized at The Sanskaar Valley School campus on 19th of January, 2019 and we thank our parent community for their cooperation in making this drive a success.

However, there are still some children who missed that opportunity and thus have remained unvaccinated. Please understand that it is a national eradication programme and hence, the Government is aiming at 100% coverage and has made it **mandatory** for all children aged 9 months till 15 years to get the MR (Measles and Rubella) vaccination done.

The MR Vaccination facility has been made available by the Government at select locations in Bhopal till 2nd of March, as per the list attached below. After every vaccination, each child will be handed over a vaccination certificate as a proof.

At present, during the year-end break, the children are mostly at home. We request the parents to avail this opportunity and get their children vaccinated, with the MR vaccine, in any one of these specified institutes, if they have not been vaccinated till date.

We would also ask you to obtain their vaccination certificate, the photocopy of which must be submitted to the respective Class Teacher on the school reopening day, 11th March 2019. We request the parents to submit *only the photocopy* with the Student's Name, ID, Class and Section clearly written on it and please keep the original certificate safely at home; the Health Authorities may cross check / verify / collect data, in future.

We solicit your support for the successful implementation of this noble initiative by the Government.

Dr. Nisha Rajan
Resident Medical Officer
The Sanskaar Valley School

Dr. Amlan K. Saha
Principal
The Sanskaar Valley School
