

Dear Parents,

Greetings from The Sanskaar Valley School

Model United Nations, popularly referred to as MUN, is an academic simulation of the United Nations and its various organs. In this creative simulation, participants take up the role of international diplomats and representatives of countries in various UN bodies including UNICEF, UNESCO, WHO, WTO, UN Security Council among others. The intense discussions, informed deliberations and unyielding negotiations culminate in many structured resolutions being voted upon by the participants, employing the same procedures and protocols as the United Nations itself. The aim of MUN is to develop universally acceptable proposals to solve some of the pressing global issues including poverty, health, energy and education, conflict, wildlife and conservation, climate change, imbalanced trade among others.
