

Tilak Holi celebrated in school

Aadhar, the pre-primary block of the school, celebrated 'Tilak Holi', the new academic session's first festival. It was a day-long celebration, with a bunch of activities planned for the tiny tots. Counters of chandan, besan, haldi and tesu flowers were put up in the porch, where the children learned to make herbal colours and pack them in pouches to take home. To spread the message of happi-

ness, the children went to different blocks of the school with pouches of 'Aadhar special herbal colour'. Back in class, the children were shown a presentation on dos and don'ts of celebrating Holi, like the harmful effects of chemical colours. They were encouraged to pick organic colours and play a dry Holi to conserve water. The children also enjoyed refreshments, including sweet, colourful drinks.
